Abstract

We present the SlangLane Open Lexicon (Release daily-2026-10-21, SHA-256 e3f6cf3db451d437c222b641...), a versioned, source-locked reference corpus of 110 contemporary English slang expressions (79 general-audience entries and 31 explicitly labeled non-graphic adult-vocabulary entries). Each entry binds a concise substitutable gloss to documented lexical evidence, records regional (US, UK, Irish, online) and register pragmatics, and pairs every expression with original example sentences and plain-English paraphrases.

1. Corpus Architecture & Sense-Frame Grounding

Unlike unmoderated crowdsourced slang websites, SlangLane separates documented lexical evidence from speaker-intent speculation. Automated entries compile from a structured sense-frame contract (sense-frame-v1) verified by literal substitution equivalence and contrastive model counterchecks. All summary records are released under Creative Commons Attribution 4.0 International (CC BY 4.0) in JSON, UTF-8 CSV, JSONL, Anki/Quizlet TSV, and Frictionless Data Package formats.
